

Summer term 2010

This term our class will be doing a lot of work on and around the topic of 'the tall ships'.

We will be reading the classic stories of '20,000 leagues under the sea' and 'Robinson Crusoe'. We will also do plenty of work about Pirates.

We will also be looking at the oceans and the environment.

There will be a lot of art work, design and technology as well as history and geography.

There will also be a trip to the Historic Quay.

Other work will be studying librarian skills at the local library
Also the children will be working on a science project 'children challenging industry' which involves lots of science experiments and than a trip to a local company to see science in action.
